What to expect each week

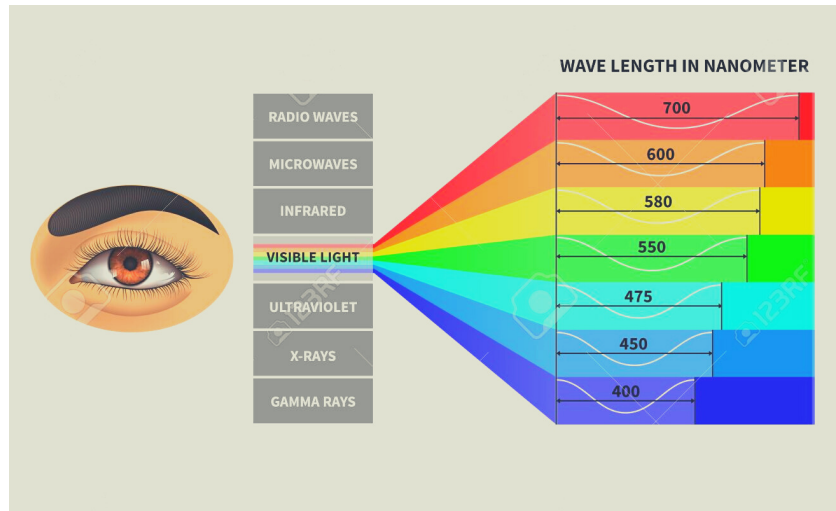

*"The secret of change is to focus all your energy, not fighting the old, but on building the new."*

- Socrates

# A MESSAGE FOR OUR STUDENTS & FAMILIES

FROM: MRS. HOLTER & MRS. JUNEAU

We are upset and heartbroken that our time together has been cut short. This year we have all been through so much with both teachers growing their families, requiring much adaption from all of us. Just as we all got into a rhythm and began building relationships with all of you, the traditional school year came to an abrupt end. Know that we miss you! Stay safe during this trying time and come visit when this is all over!

## WHAT TO EXPECT EACH WEEK

This nine weeks our topic is still energy, but focusing on waves and the electromagnetic spectrum. We will be using this time to reinforce math and English through science. Each week you will receive the following:

- STEMscopedia
- Vocabulary with definitions
- Diagrams (if applicable)
- Examples of Calculations (if applicable)
- Reading Science Article with comprehension questions
- Math Connections Practice
- Guided Practice graphic organizers

Science uses a digital textbook called STEMscopes. Majority of the materials for this nine weeks can be found there. You are welcome to log on to STEMscopes to access information there. If you need your STEMscopes log in, contact your teacher. The link for the website is located at :

<http://www.padlet.com/ejuneau/four>

If you have any questions, there are several ways you can contact your teacher. You can email, you can text via Remind, and you can call the school between the hours of 8:30 to 11:30 am, Monday through Thursday. Someone will answer and get a message to your teacher.
