

Advanced Chemistry

Supply List: -Three-ring binder
-Lab Notebook
(Composition or spiral)
-Pencil and Pen
-Calculator (If you don't have one, I have some to loan out)

Notebooks

I strongly suggest that you keep notes for this class. Good organization is critical.

Best way to organize binder is to divide it into the following sections: 1) Class notes, 2) Class handouts, 3) Quizzes, 4) Worksheets/Homework, 5) Lab activities, 6) Class Information/Rules

You shouldn't throw anything away!

GRADING:

*We will do several assignments this year including note taking, lab activities, hands-on and interactive projects, tests, and quizzes.

Total Points

Classwork/Homework	10-20 points
Quizzes	20-50 points
Labs	30-50 points
Projects	100 points
Unit Test	100 points
Nine Weeks Exam	20% of Total Points

Consequences

- 1st- Verbal Warning
- 2nd- After Class Discussion
- 3rd- Note Home to be Signed
- 4th- Phone Call to Parent/Guardian
- 5th- Sent to Principal
- 6th- Parent/Guardian Conference

Class assignments and test dates will always be written on the board.

Late grades: All assignments are to be turned in on time. An assignment that is one day late can be turned in for 50% credit. After that, no credit will be given.

Attendance: Regular class attendance is essential. Students are responsible for getting missed assignments and making up tests and labs. Make up work must be completed within **TWO DAYS** after they return to school.

- Make up work will be located in the **ABSENT WORK BOX**. Students will go there to get their make up work, not ask the teacher for it

Make up tests: Students must schedule a time with the teacher and have TWO DAYS to make up or will earn a zero for the grade.

Make up labs: For missed labs, students will write a two page report on certain topics or complete an alternate assignment. Reports must be typed, double spaced, and include works cited.
