

Statement of Science Equipment Usage

The use of equipment (lab equipment, electronic equipment, computers, etc) in the science classroom is important for the understanding of key scientific concepts. Using science equipment requires that you conduct yourself in a responsible manner. Bottom line is, you are responsible for your use of science equipment. Please read over this equipment usage form, sign and return to your science teacher.

*If you do not understand how to use a piece of equipment, ask your instructor for help. Do not use the equipment without knowing how and risk damaging the equipment.

*Inspect equipment prior to use and report any damage you notice immediately and do not use. Failure to do so will result in your being responsible for damage.

*Handle equipment with care, using proper technique. Misuse of equipment including any type of negligence determined by the teacher will result in the student/guardian being responsible for compensation of damage to the equipment or replacing the equipment.

I have read and understand these equipment usage guidelines and agree to follow the rules set forth in this contract.
